## BRIEF DESCRIPTION OF GHAPO

Grassroot Health Aid Promotion Organization otherwise known as GHAPO is a non governmental organization (NGO) which was created to produce a healthier, happier population through education, healthcare research, prevention, promotion and screening, and alleviation during environmental disasters. GHAPO empowers the new generation through education and basic emergency training while lending support to other NGO's in their strive to positively impact the communities. All these activities allow us to remain true to our goal of alleviating suffering by improving health and providing educational training to the marginalized.

GHAPO is a Nigerian based NGO with a 501 © (3) charity status. The Board of Trustees of GHAPO is made up of Medical doctors, Health professionals, Educators, Environmentalists and others. The conceptualization of GHAPO began in 2005 by Dr (Mrs) Esther Imogu while attaining her Masters in Public Health from University of Texas, School of Public Health.
